

keep this the way it is...I enjoy not....going to the phone every two seconds.
My name starts with "a"...and it is the first name called in Brookston. I got
tired of it. This last year, I have really enjoyed not being bothered in my
own home. It was previously to the point of harrassment. If this is changed
back to where solicitors can bother me each night, I think I may file harassment
charges against all callers. Don't let this change....please
